Monday, January 12 –
 Max 50 students

Tuesday, January 13 –
 Max 50 students

NCBRT

National Center for Biomedical Research and Training
 Academy of Counter-Terrorist Education at Louisiana State University.

NCBRT

The National Center for Biomedical Research and Training at Louisiana State University offers DHS-certified courses covered under the NCBRT's Homeland Security National Training Program Cooperative Agreement. As a DHS primary training provider, the NCBRT can offer this vital training at no direct cost to your agency. Please contact us at info@ncbrt.lsu.edu or 1-877-829-8550 to schedule a course through your state administrative agency, or visit www.ncbrt.lsu.edu to learn more about the NCBRT's training opportunities. Remember, the time to prepare is now!

Awareness

Biological Incidents Awareness (AWR-118)

This course provides a brief overview of biological incidents that have occurred; biological agents that are naturally occurring, could be accidentally released, or could be used deliberately; the typical course of disease and how that may vary in a deliberate incident; an overview of biological agents as terrorist weapons; and methods of protection from biological agents (with an emphasis on protection using methods and equipment readily available to emergency responders and the general public). This course can be considered an introductory course to Emergency Response to Domestic Biological Incidents (PER-220).

Professional Disciplines

Emergency Medical Services, Fire Service, Hazardous Materials Personnel, Healthcare, Law Enforcement, Public Health

The primary target audience for the Direct Delivery version of this course includes:

- Public health officials
- Emergency responders: police, fire, emergency management and emergency medical services personnel and planners
- Personnel from governmental agencies who may become involved in a biological incident

The secondary target audience for the Train-the-Trainer version of this course includes:

- Public officials
- Business representatives
- City leadership
- Shopping center officers
- Transportation workers and managers
- Security guards
- Educators
- Large companies
- School leaders
- School nurses
- Prosecutors
- Utilities personnel
- Sanitation supervisors
- Healthcare professionals
- Individuals in other civic roles
- Public works personnel

The target audience for the Train-the-Trainer version of this course is established trainers/instructors in academies, agencies or departments who are seeking to train participants by teaching the Indirect version of this course using course materials provided by NCBRT.

The Indirect version of this course is commonly delivered as part of in-service or academy training to support continuing education.

Min/Max Enrollment Min 20; Max 30

Hours 7.0 (Direct/Indirect Delivery);
 8.0 (Train-the-Trainer)

Format Instructor-Led Training
 (Direct Delivery; Train-the-Trainer;
 Indirect Delivery)

DHS Course # AWR-118, AWR-118-1, AWR-118-2

Snohomish County Sheriff's Office

Personnel Development Division

Training Unit

The NCBRT is a DHS training partner providing high-quality training to emergency responders throughout the United States and its territories under the NCBRT's Homeland Security National Training Cooperative Agreement.

Preparedness is a shared, national responsibility requiring our active participation to prepare America to address its threats. The NCBRT is preparing you today for tomorrow's threats.

As a DHS NTED training partner, NCBRT provides training at no cost to your agency, there is no tuition for anyone to attend. This is a one day class, thus it will be delivered twice with a max number of 50 students each day.

The National Center for Biomedical Research and Training (NCBRT) provides high-quality training to emergency responders throughout the United States. We are dedicated to excellence as measured by our quality products and services. Committed to "preparing you today for tomorrow's threats," the NCBRT has over 11 years of experience in course development and delivery. The NCBRT is part of the Stephenson National Center for Security Research and Training (SNCSRT) as well as the National Domestic Preparedness Consortium (NDPC), recognized by the Department of Homeland Security (DHS) as the principal vehicle through which the Training and Exercise Integration (TEI) division identifies, develops, tests, and delivers training to federal, state, local, and tribal emergency responders.

The NCBRT is involved on a national scale in research, curricula development, training, and other projects within the areas of WMD, mass casualty incidents, and counter-terrorism. As a founding member of the National Domestic Preparedness Consortium (NDPC), the NCBRT is one of seven partners who identifies, develops, tests, and delivers training to state and local emergency responders. The other members of the NDPC include:

- Center for Domestic Preparedness (CDP)
- New Mexico Institute of Mining and Technology (NMINT)
- Texas A&M University (TEEX)
- Department of Energy's Nevada Test Site (NTS)
- Transportation Technology Center, Inc. (TTCI)
- National Disaster Preparedness Training Center (NDPTC)
